Roses — Perennials — Vines
Evergreens — Ornamental Shrubs
Rock Plants — Natives — Bulbs

E. P. BALTZ

IT would be a pleasure to personally meet every one of our thousands of customers. To those within driving distance and to those visiting our city from afar, we cordially invite you to our nursery. To chat a while in our office or wander through our grounds and know that we are glad to have you.

To those ordering plants shipped, we want to assure you that every order will receive our personal attention and that you may depend on prompt service, clean and healthy plants to delight you in your own garden.

If for any reason you should feel cause for complaint, we ask that you promptly write to us. Honesty and fairness is the basic principle upon which our success lies, and it is our sincere desire that every person dealing with us shall feel full satisfaction for every dollar spent.

OUR ROSE TEST GARDEN

Contains more than 200 varieties. Each year many new varieties are added for trial and only those of known and proven worth are offered for sale. In this manner we are prepared to offer our plants with the best chances of success possible.

Prices are based upon present market conditions and are subject to change without notice.

GUARANTEE — Every plant is guaranteed true to name, carefully selected and packed to arrive in good condition. If found otherwise, return immediately at our expense. Plants failing to grow, from drouth, freezing or weather conditions beyond our control, we will replace at one-half price paid for them.

OREGON GROWN ROSES

Hardy—2 Year Old Field Grown

PREPAID PRICES

Genuine Oregon grown roses from our own fields in the famous Willamette Valley, landed at your door at even less cost. No forcing to get tops, or winter storing that reduces vitality, in our roses. Every plant right from the open and full of every bit of vigor originally stored by nature. This means success for you and satisfaction to us and the reason our mail order business from over the entire United States has grown by leaps and bounds, even through the depression years.

WE OFFER TWO GRADES—Both are 2 yr. old field grown plants:

No. 1 Grade.....Selected stock, 60c each, 3 for \$1.50, 12 for \$5.00

No. 2 Grade.....Standard, 50c each, 3 for \$1.00, 12 for \$3.50

HARDY 2-YEAR ROSES

ANGELE PERNET — Buds deep, flaming orange to semi-double blooms of brilliant red-dish apricot. Fragrant. Bush of moderate growth, stems stiff, foliage shiny and attractive.

AUTUMN—Mingled shades of burnt orange and red. Somewhat like the President Hoover but smaller, darker and more double.

AUSTRIAN COPPER—One of the good old-fashioned roses. Single copper.

AMERICAN BEAUTY—The old favorite red.

BRIARCLIFFE — An improved Columbia. High-centered buds of excellent form, color bright pink. Stems long, stiff and nearly thornless.

BETTY UPRICHARD — Buds coppery red. Flowers semi-double; salmon pink on inner surface of petals and glowing orange carmine on outside. Plant tall and erect, and flowers borne on long stems.

BRITISH QUEEN—Beautifully formed buds opening into pure double white flower.

CECIL—Very large, single flowers of clear, golden yellow. Resistant to mildew and almost constantly in bloom.

CHAS. K. DOUGLAS — Large, semi-double flowers of brilliant light crimson with a scarlet undertone.

CHAS. P. KILHAM — Buds unusually long and slender with high-pointed centers, opening to disclose shades of oriental red and rosy orange. Fully double with long, slightly quilled petals of dark coppery rose.

CHATEAU DE CLOS VOUGEOT — Velvety red rose of very double blooms. Spicily fragrant, low-growing, rather dwarf bush.

CALEDONIA—Best pure white rose of recent years. Buds extra long and open very slowly.

COLUMBIA—Large, fully double bright pink flowers. Fragrant and borne until late fall. A strong grower, almost thornless.

CUBA—Brilliant orange-scarlet buds of great length which open to large, almost single flowers of vermillion and orange.

DAINTY BESS—Slender, rosy-salmon buds opening to pale rose blooms. Prolific bloomer, lasting when cut and charming for display in individual vases.

DAME EDITH HELEN—Pointed buds which open slowly to large blooms of brilliant pink. Very fragrant.

DUCHESS OF ATHOL — Large buds of bronzy orange; flowers of apricot and gold flushed with rose and borne in profusion. Foliage dark bronzy green and remarkably mildew-proof.

DUCHESS OF WELLINGTON — Long saffron yellow buds, opening to very large, light yellow flowers.

EDITOR McFARLAND—Long pointed pink bud with a glow of amber and a paler edge. Belongs to the Radiance group.

EDEL—Pure white on outside of petals and ivory at base. Very full and double, with frost-like edges.

EDITH NELLIE PERKINS — Salmon-pink and cerise-orange. Buds long and pointed.

E. G. HILL—The most unfading of all red roses. Long lasting when cut. Blooms produced singly on long strong stems.

ETOILE DE HOLLAND — Brilliant red blooms with beautiful oval buds. Quite fragrant, strong, and free branching.

FRAU K. DRUSCHKI—Pure white, outer petals of buds occasionally tinged with pink.

FEU JOSEPH LOOYMANS — Long beautifully formed buds of apricot color opening to golden buff. Unusually bright, shiny foliage.

GENERAL McARTHUR — Bright red with flat open blooms, sweetly scented.

GOLDEN EMBLEM—Beautiful long buds of brilliant yellow striped with crimson on the outer petals. The blooms open slowly and are dark golden yellow.

GOLDEN OPHELIA — Deep golden yellow flowers of medium size.

GRUSS AU TEPLITZ—The old bedding rose. Always in bloom with its display of rich crimson.

GOLDEN DAWN—Buds of rich straw yellow, opening to a beautiful well formed, fragrant, double sunflower yellow, passing to lemon with age.

HADLEY—Rich crimson with velvety texture, very fragrant. Beautiful foliage and mildew proof.

HORTULANUS BUDDE — Bright scarlet semi-double flowers. Fragrant and a heavy producer.

HOOSIER BEAUTY — Long dark red buds opening to velvety red. Spicy fragrance.

IMPERIAL POTENTATE—Dark shiny rose carmine buds which open to crisp petaled blooms of shining rose-pink.

INNOCENCE—Great stiff petaled flowers 4 to 6 inches across, long ivory buds. Single white, unlike any other rose. Rich, spicy fragrance.

IRISH ELEGANCE—Long, beautiful buds of apricot, opening into a single flower.

IRISH FIREFLAME — Rich deep orange, splashed with crimson. Single flower.

IRISH HOPE—A beautiful full bud opening into a rich red of perfect form. Delightfully fragrant. Bush is upright with shiny bronze green foliage.

ISOBEL — Flowers single and of a rich, flushed orange-scarlet changing to brilliant pink and copper with pure yellow centers.

BRIARCLIFF

CLUB ORDERS

Free Roses

Make up an order with your friends.

Order 50 roses, and receive 6 free.

Order 100 roses, and receive 12 free.

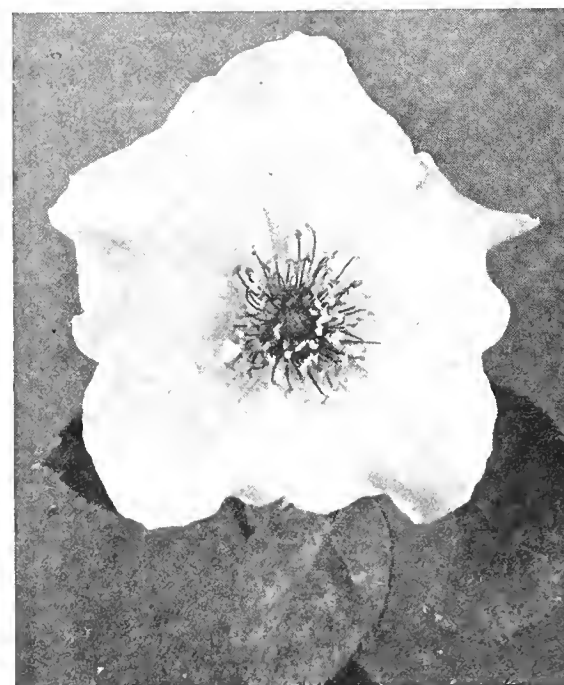

Your choice selected from our general list on pages 3, 4, 6. Climbers included.

JOANNA HILL—A slender daintily colored variety of orange yellow. Moderately fragrant and exceptionally fine for cutting.

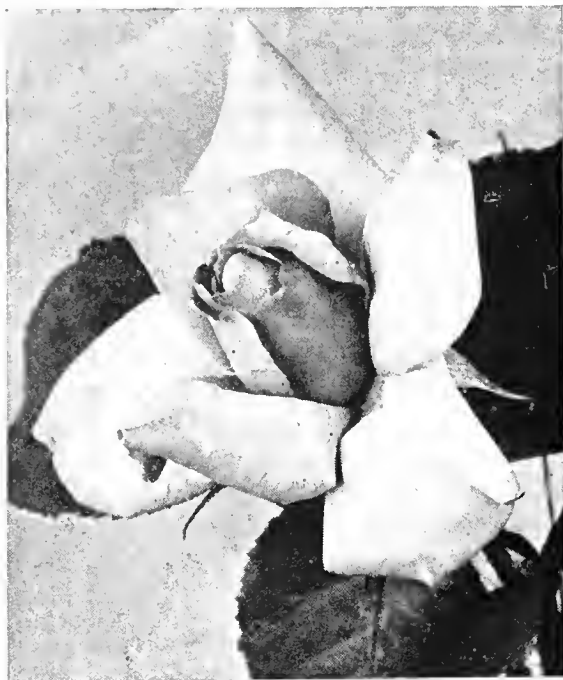

JULIEN POTIN—Gorgeous brilliant golden-yellow becoming deeper as the flower matures. Buds long and shapely. Glossy, bronzy-green, mildew-proof foliage.

K. A. VICTORIA—Pearly white, tinted with lemon in center.

K. OF K.—Brilliant scarlet with a velvety sheen. Semi-double, intensely fragrant and wonderful for cutting.

DAINTY BESS

CHAS. P. KILHAM

DAME EDITH HELEN

MME. BUTTERFLY

KILLARNEY BRILLIANT — Rich glowing shade of rosy-carmine. Sport of the Killarney.

LADY HILLINGTON — Beautiful long pointed buds opening into rich apricot-yellow blooms. Foliage when young, dark violet, turning to deep green with age.

LADY MARGARET STEWART — Buds of deep sunflower yellow, heavily veined with orange scarlet which open into a flower of deep sunflower-yellow. Leathery sage green foliage which seems to be disease proof.

LOS ANGELES — Rich flaming pink, shaded golden yellow. The most popular rose grown.

LULU — Dainty, extremely long buds of coral apricot with which the bush is covered at all times. Flowers semi-double, but of beautiful form.

LADY ASHTOWN — Deep carmine-pink, shading to a yellow at the base of petals. Continuous bloomer.

LUCIE MARIE — A very strong growing plant, producing an abundance of bloom. A soft apricot yellow lightly suffused with coppery red.

LADY FORTEVIOT — Large buds opening to very large bright saffron yellow flowers flushed with carmine, red and orange.

LORD CHARLEMONT — Long buds opening to large double flowers of intense clear crimson-scarlet and deepening to lasting carmine-crimson with almost-black shadings.

MABLE MORSE — Prize winner at the 1934 rose show. Beautiful flowers crimson tinted, opening to a full yellow.

MARGARET MCGREDY — Orange scarlet or brick red. Heavy, beautiful foliage and stout stems.

MEV. G. A. VANROSSEM — Petals exceptionally thick and dark orange-yellow heavily veined and suffused with red.

MCGREDDY'S SCARLET — Brilliant red petals on hinges of deep gold. An exceptionally fine rose, seldom out of bloom.

MME. BUTTERFLY — A brilliant pink suffused apricot and gold. Very sweet-scented.

MME. CAROLINE TESTOUT — Clear pink, flowers large and showy.

MME. EDOUARD HERRIOT — A pure copper color, with buds of coral red, shaded with yellow at the base.

MME. JULES BOUCHE — White, lightly tinted with pink at the center.

MRS. HENRY BOWLES — Warm pink flushed with salmon. In constant and profuse bloom from early spring until late fall.

MRS. LOVELL SWISHER — Deep coppery-salmon, shading to delicate salmon-pink. Vigorous grower and free bloomer.

MRS. AARON WARD — Indian yellow, washed salmon rose; buds small but beautifully formed and borne profusely; vigorous growth.

MRS. E. P. THOM — Has well formed buds and fairly large, double flowers of clear, even yellow, produced on good stems.

MRS. PIERRE S. DUPONT — Beautifully formed, dark orange yellow. The buds are rather small but a most profuse bloomer. Dark glossy green mildew-free foliage.

MRS. SAM MCGREDDY — Large fairly double bloom of orange salmon, with a suffusion of gold. Strong healthy grower.

MRS. HENRY MORSE — A bright pink with silvery shadings.

NORMAN LAMBERT — Salmon orange suffused bronze; shading to yellow at the base.

OLD GOLD — Coppery red; a very fine and popular rose.

OPHELIA — Flesh pink, shaded with rose. Large beautifully formed buds standing up well on stiff stems.

OLYMPIAD — Rich oriental velvety scarlet with golden base.

PADRE — Rich coppery scarlet. Semi-double flowers borne on long erect stems on a tall bush. Free bloomer and a remarkable color.

PRESIDENT HOOVER — Combines many shades of cerise-pink, flame, scarlet, and yellow. Long, beautifully formed buds and a rich fragrance. Bush is exceptionally fine.

PORTADOWN FRAGRANCE — A very double flower of orange-salmon pink with a silver sheen. A profuse bloomer.

PORTADOWN IVORY — Long buds opening to ivory white. Perfectly double flowers, sweetly scented.

REV. PAGE ROBERTS — Soft buff yellow to a rich salmon. Very free blooming low bush. Rich, fruity fragrance.

RAPTURE — Like Ophelia in form, but a deeper pink.

RED MOSS — The old fashioned red moss rose.

RED RADIANCE — The old hardy free blooming red favorite.

SUNBURST — Yellow shaded orange.

SUNSTAR — A rich orange yellow.

SENSATION — Long pointed bud of deep rich red, having fine white vein in petals.

SHOT SILK — Gold and orange buds opening to semi-double flowers of coppery rose shot with golden yellow. Bright foliage almost immune to mildew. Good for cool places.

SOUV. DE CLAUDIUS PERNET — Long-pointed buds of sunflower-yellow carried on good stiff stems. Exceptionally good.

SOUV. DE H. A. VERSCHUREN — Large flowers of magnificent form developed from perfect buds of apricot yellow. Possesses a very strong and delicious perfume.

TALISMAN — A mixture of orange and yellow which varies in the different blooms. Fairly double and borne on long stems. Sweetly scented.

VILLA DE PARIS — An excellent deep yellow. Fine for cutting purposes.

VANGUARD — A tall shrub type, large full bloom of orange salmon.

VATERLAND — A strong growing rose which is much larger and of a darker color than the Hadley. Flowers very double.

VESUVIUS — Shapely buds, opening to dark red single blooms with showy yellow stamens; exquisitely fragrant.

BABY ROSES

As a class are very hardy, beautiful dense foliage and prolific bloomers. Use them effectively as hedges or borders along walks and drives, grouping in front of other shrubbery or in any position where mass effect is desired. They are low growing, always in bloom and require but little care.

Postpaid prices: 2 yr. 1st grade, 50c each, 6 for \$2.25, 12 for \$4. 2 yr. 2nd grade, 40c each, 6 for \$1.85, 12 for \$3.35.

AGNES — A yellow rugosa, very fragrant amber with a deeper center.

CECIL BRUNNER — Best known and most popular baby rose. Large loose clusters. A strong continuous bloomer.

ELLEN POULSON — Small flowered baby rose. Soft rose pink.

EDITH CAVELL — Baby rose. A deep crimson.

GOLDEN SALMON — New color in baby roses, brilliant orange-scarlet. Flowers large for this class, borne in large trusses.

PERLE DE ORR — Similar to Cecil Brunner, but with coppery shade.

ELSE POULSEN — Flowers medium size, semi-single, lasting, bright rose-pink.

KIRSTEN POULSEN — Grows 3 to 4 ft. tall. Covered with medium size, cherry red single flowers all summer. Wonderful for hedge.

COUNTESS VANDAL

THE LATEST INTRODUCTIONS OF NEW AND PATENTED ROSES

Strong No. 1, 2 yr. first grade roses.

POSTPAID PRICES

You will be interested in these very latest introductions. The marvelous colorings attained are indescribable and are sure to win your admiration and bring many pleasant comments from your neighbor. Although higher in price than the older varieties, you will be more than repaid by the satisfaction gained in having your garden up to the minute.

It is true that all the new varieties in our list will not be perfect in your garden and only by years of testing could we make positive statements as to results. All, however, have very promising features and are well worth trial.

GUARANTEE—Every plant is guaranteed true to name, carefully selected and packed to arrive in good condition. If found otherwise, return immediately at our expense. Plants failing to grow, from drouth, freezing or weather conditions beyond our control, we will replace at one-half price paid for them.

ALEZANE—Plant Pat. No. 116. A very striking, reddish apricot brown with a yellow center. This lovely rose should be among your first choice selections. Very free and consistent bloomer. **Each \$1.50, 3 for \$3.75, postpaid.**

BLAZE—Plant Pat. No. 10. A hardy crimson everblooming climber, similar to Paul's Scarlet except for its everblooming feature. **\$1.00 each, 3 for \$2.50.**

COUNTESS VANDALL—Plant Pat. No. 38. This beautiful rose has proven itself one of the finest ever created. The long pointed buds, its distinctive shadings of coppery bronze suffused with soft gold and its wonderful form will win your instant praise. **\$1.00 each, 3 for \$2.50.**

DUQUESA DE PENARANDA—A blending of apricot, orange and pink. Full and double. **\$1.00 each, 3 for \$2.50.**

ECLIPSE—Plant Pat. No. 172. This rose has been the international sensation of the year, and was awarded prizes both abroad and in this country. Beautiful long buds ornamented with attractive sepals. The color is a pure rich golden yellow without shadings. Strong tough petals that are not too numerous. **Each \$1.50, 3 for \$3.75.**

GLOAMING—Plant Pat. No. 137. Large buds carried on long rigid stems make this variety particularly adapted to cutting. A tall vigorous branching plant. The large full blooms are of a peculiar pink, overlaid with salmon. **Each \$1.50, 3 for \$3.75.**

GOLDEN CLIMBER—Plant Pat. No. 38. A golden yellow flecked with orange scarlet coming on stems of 18 inches or more. Hardy and vigorous growing, but not a profuse bloomer. **\$1.00 each, 3 for \$2.50.**

HEINRICH GAEDE—A very striking copper-orange that differs from any other rose. Its decided honey fragrance alone is sure to win this rose a prominent place. **Each \$1.00, 3 for \$2.50.**

LOUISE KRAUSS—Large full and fragrant, a glistening yellow with orange tints. Handsome foliage, long stems for cutting. Considered one of the best acquisitions of recent years. **Each 75c, 3 for \$2.00.**

MARY HART—Plant Pat. No. 8. A striking red sport of Talisman with the same rich foliage and beautiful form. Deep velvety blood red with an overflow of amber. Unlike most roses, it opens well after being cut and keeps well. **Each \$1.00, 3 for \$2.50.**

MATADOR—Plant Pat. No. 170. Large full, well formed crimson with a darker sheen on the reverse side, very perfumed and vigorous. We believe this is the best red rose yet. **Each \$1.50, 3 for \$3.75.**

MCGREDDYS TRIUMPH—Pat. applied for. Large pointed buds of cerise overshadowed with orange, opening slowly into large cup-formed flowers of brilliant pink and cerise overlaid with amber toning to yellow and large tufts of yellow stamens. Very handsome foliage. **Each \$1.50, 3 for \$3.75.**

MERMAID—Climbing, beautiful single pale yellow flowers, 5-6 inches across. Without doubt the prettiest yellow climber of all. Not as rugged and hardy as some and we only recommend this for the sunny sheltered location. **\$1.00 each, 3 for \$2.50.**

NIGRETTE—Plant Pat. No. 87. "The Black Rose of Sangerhausen." Intensely crimson with a blackish velvety sheen, deliciously fragrant. A very unusual rose. **Each \$1.50, 3 for \$3.75.**

SIGNORA—Pat. applied for. Long bud of a warm burnt sienna opening to a lighter hue toward mandarine. Tall growing with every bloom on a long stem. Excellent for cutting. Beautiful foliage. **Each \$2.00, 3 for \$5.00.**

SOUVENIR—Plant Pat. No. 25. The golden Talisman. Deep rich golden yellow with all the fine qualities of the Talisman. **Each \$1.00, 3 for \$2.50.**

SOUV. DE MME. CHAMBARD—Large semi-double, cupped, fragrant. The outer petals are a rich rose red; inner petals a deep rose pink with a golden glow at center. Vigorous upright growth. **Each \$1.00, 3 for \$2.50.**

SOLIEL DE FRANCE—Long pointed buds of rich yellow, fairly double with warm tints of orange and apricot, retaining the colors in all weather. Glossy foliage that is resistant to disease. A rose of great future. **Each \$1.00, 3 for \$2.50.**

TEXAS CENTENNIAL—Plant Pat. No. 162. A sport of President Hoover with all its fine qualities. Blooms of blood red turning to cerise red in center. A very striking new red. **Each \$1.00, 3 for \$2.50.**

TOKEN—Plant Pat. No. 95. Full double, ophelia shaped buds, flowers are a single toned glowing orange. A free bloomer and upright growth. A unique rose that you will instantly like. **Each \$1.25, 3 for \$3.25.**

TEMNO—Almost black. The largest of all the dark roses. Rich deep velvety tones. Well formed, richly perfumed. Strong growing, branching habit. A beauty that will charm you. **Each \$2.00, 3 for \$5.00.**

SELECTED CLIMBING ROSES

No. 1 Grade, 60c each, 3 for \$1.50, 12 for \$5.00

Standard, 50c each, 3 for \$1.00, 12 for \$3.50

Climbing roses are again very popular. They are easy to grow. Plant them in a sunny location, enrich the soil with well rotted manure or a good commercial fertilizer and keep the soil cultivated around them. You will be repaid with an abundance of flowers and beautiful foliage.

Special Collection of EVERBLOOMING VARIETIES

No. 1 First Grade Plants

1 Clb. President Hoover.

1 Clb. Talisman.

1 Clb. Dame Edith Helen.

1 Clb. Lady Hillington.

1 Clb. Mme. E. Herriot.

1 Clb. Hoosier Beauty.

6 for \$2.40, shipped prepaid.

AMERICAN BEAUTY—Rich, rosy, deep pink flowers, about 3 inches in size, which are produced in great abundance.

AMERICAN PILLAR—Single pink with white center and yellow stamens. Flowers borne in clusters with foliage a clean and shiny green.

BETTY UPRICHARD—Same as bush form, which see.

BLACK BOY—Semi-double flowers of dark glowing red, overlaid with a sheen of velvety black.

CLIMBING BELLE OF PORTUGAL—Long bud, soft creamy pink with a suggestion of yellow. Vigorous grower.

CLIMBING PRESIDENT HOOVER—Same flower as bush form.

CLIMBING TALISMAN—Same as the bush form; new.

CLIMBING ETOILE DE HOLLAND—A climbing sport of one of the best dark red bush roses.

CECILE BRUNNER—Vigorous pale pink baby climber.

CHAPLIN'S PINK—A cross between the American Pillar and Paul's Scarlet climber. Very good new climber which has large clusters of semi-double soft pink flowers.

DOROTHY PERKINS—Bright pink.

DR. VAN FLEET—Flesh pink, double, and borne singly.

DAME E. HELEN—Large, very double shell pink.

EXCELSIOR—The red Dorothy Perkins.

EMILY GREY—Golden yellow.

GENERAL McARTHUR—Fine, fragrant red.

GOLDEN EMBLEM—Yellow, same colorings as in the bush rose.

HADLEY—Crimson red.

HOOSIER BEAUTY—Splendid dark red blooms, delightfully fragrant.

KITTY KININIMONTH—Large, ruffled semi double blooms of fadeless pink.

K. A. VICTORIA—A beautiful creamy white.

LADY ASHTOWN—Bright silvery pink.

LADY HILLINGTON—Large flowers with long-pointed buds; color of deep apricot-yellow.

LEMON PILLAR—Large full sulphur yellow flowers.

LOS ANGELES—Shrimp pink. Same as the bush form.

MME. GREGOIRE STAECHELIN—Crimson buds opening to large, perfumed pale pink flowers.

MME. CAROLINE TESTOUT—Large satiny pink.

MME. E. HERRIOT—Brilliant coral red buds opening to flaming pink and orange.

MRS. AARON WARD—Yellow, tinted salmon rose.

PRIMROSE—Large, double canary yellow flowers.

PAUL'S SCARLET—Clusters of semi-double scarlet red flowers.

SILVER MOON—Long, creamy buds followed by beautiful semi-double flowers.

SUNBURST—Yellow with orange shadings.

SCORCHER—Handsome vermillion flowers in great profusion.

JOANNA HILL

Planting Instructions

Few plants respond so readily to good care and culture as the rose. But few will survive under more adverse conditions. Or, though your bushes may grow, do not expect best results unless you would give them thought and care throughout the year. Our plants are packed well in damp moss to arrive in perfect condition for immediate planting. If not planted immediately the roots should be kept moist and stored in cool place until planted.

Select a place that has not less than one-half the day's sun, more or full sun is better. Dig the soil to a good depth to know that the plant will have good root room and that a layer of hard pan or tight earth does not exist just below the plant to hold water and injure during the winter months. Enrich the soil with well rotted manure and sand if necessary to create a friable condition. Some clay in the soil is desirable for its mineral content, provided enough sand and humus are added to make the soil workable.

Dig large holes, spaced 18-24 inches apart. Spread out the roots and fill in with loose earth. Run water in the holes while filling in to bring soil in better and closer contact to the roots. Cut back tops to about 10 or 12 inches. Do not plant too deep. Plant only to the depth the plant originally grew. This may be readily seen by the color of the bark, or just below the branches.

During the growing season the plants should be fed with a good complete commercial fertilizer worked into the top soil around the plant; small quantities monthly is best.

Dust the plants frequently with dry sulphur, containing about one-fifth arsenate of lead, to keep down mildew. Watch the young shoots for Aphis and use a spray containing either nicotine or pyrethrum.

Space does not permit more detailed instruction and only a general outline is intended. Your interest and good judgment are after all the most important factors and will pay you a thousandfold for every effort spent.

TREE ROSES

Grafted on standards 4 to 5 feet high. Beautiful straight standards that will be matched for height and packed carefully.

Plan these in connection with your beds of bush roses. You will be delighted with the effect. Each \$2.50, 4 for \$9.00. Shipped only by express or freight, not prepaid. Packed weight about 12 pounds.

See main list of roses for more detailed description of variety.

Souv. de Claudius Pernet. Yellow.

Etoile de Holland. Beautiful red.

Hadley. Velvety red.

Talisman. Red, orange and gold.

President Hoover. Reddish copper.

Mme. E. Herriot. Orange copper.

Padre. Semi-double, coppery red.

Lucie Marie. Apricot yellow.

DOROTHY PERKINS

LEWISIA FINCHI

OREGON NATIVE ROCK PLANTS

But few spots in the world can compare with the beautiful rock plants native to our state. The following is a partial list of the many varieties we have nursery grown and should be planted in the fall months for best results.

All may be grown in your garden successfully by following the suggestions in the description to gain a natural location. No other class of plants can equal these for interest in your garden. Order as early as possible that we may ship your plants at the proper time. Plants will be shipped by mail or express as you may direct. Please include carrying charges in your remittance, otherwise we must ship charges collect. If more money than necessary is sent we will either return it or send additional plants at your option.

CEANOTHUS

Prostratus—A rare native of Oregon, dwarf evergreen shrub for the alpine garden. A creeping mass of holly-like foliage covered with umbels of lilac-like flowers in the spring. 2 years old, 50c ea.

CLINTONIA

Andrewsiana—A very rare native in deep cool places. Clumps of glossy foliage and heads of rose-pink flowers on 12-inch stems. Berries of a brilliant hue. Very rare. 50c each, 3 for \$1.35.

CONANDRON

Ramondioides—Wonderful little dwarf plant of tufted habit which makes a pretty show in a sheltered site in the rock garden. The violet-blue flowers are borne in the summer on short stems from glossy bright green begonia-like foliage. 75c each, 3 for \$2.00.

DRABA

Olympica—The drabas are extremely useful for crevices in the rock wall or paved garden, for walls or moraine. The bright green rosettes form a compact matt covered from May to July with yellow flowers. They delight in full sun. 25c each, 3 for 65c.

ERYTHRONIUM (Trout-Lily or Dogs-tooth Violets)

These are naturally woodland plants. They will thrive in shaded crevices of the rockery in well drained rather moist soil. Most all have richly mottled foliage. (See illustration.)

Giganteum—Large cream colored flowers.

Hendersonii—Light purple, center of deep maroon.

Parviflorum—Bright yellow flowers on 10-inch stems.

10c each, 12 for \$1.00.

GENTIANA

Nothing can compare with the blue of the Gentians in the rockery. Some are rather difficult to grow but we are listing a few of the easily grown and most beautiful ones of our natives. All for open sun.

Affinis—Clusters of dark green, rather small leaves and dark blue flowers. Deep spongy soil. 75c each, 3 for \$2.00.

Bisetae—Very dwarf with large flowers, blue with white throat, spotted with brown or black. 50c each, 3 for \$1.35.

Oregana—Named for this state, Oregon. Broadly funnel-shaped blue flowers on 12 to 15-inch stems. 50c each, 3 for \$1.35.

Spectrum—Semi-open flowers of deep blue, 24 inches. 35c each, 3 for \$1.35.

Watsoni—Same as the preceding, except the flowers are pale yellow. 25c each, 3 for 65c.

IRIS

Our state boasts of the most beautiful native Iris in the world, and the following are all nursery grown. All require part shade.

Bracteata—Deep yellow veins of purple, 12-inch stems. 35c each, 3 for 95c.

Douglasiana—Broad foliage, various shades of blue. 35c each, 3 for 95c. (See illustration.)

Gormanni—Soft yellow flowers, long blooming period. 12-inch stems. 50c each, 3 for \$1.25.

Tenuis—Large white flowers, marked with yellow and purple, very rare. 50c each, 3 for \$1.25.

Gentiana Imgrami

A new and rare species. Here is a real treat.

Bright shiny green leaves, and 2-5 very dark wide open flowers on 8-15 in. stems. Edges of petals are fringed and speckled with greenish white spots. Plant with good drainage in soil mixed with plenty of leaf mold or peat and sand. Open sun or partial shade. Each 75c, 3 for \$2.00.

PENTSTEMON MENZIESII

IRIS DOUGLASIANA

ERYTHRONIUM

LEWISIA

The Lewisia is truly a Western American native. Their requirements are sharp drainage and with the exception of the deciduous species require a little shade.

Columbianum—Pink and white striped flowers, 6 to 10-inch stems. 25c each, 3 for 65c.

Columbianum roseum—Flat rosettes of dark green leaves, rosy-purple flowers on 6 to 10-inch stems. May to Nov. 35c each, 3 for 95c.

Howelli—Rosettes of broad evergreen leaves 3 to 4 inches long and flat on ground, with flowers of pink with deeper stripe down center of petals on 10-inch stems. (See illustration.) 35c each, 3 for 95c.

LILIUM. See our list of Lily Bulbs.

PENTSTEMONS

This is truly an American genus, and the indispensable ones come from our state. We are listing a few of the native ones for range of color. Open sun, ordinary loam.

Barrettiae—Dwarf shrubby evergreen, silvered foliage, spikes of lilac purple flowers. 35c each, 3 for 95c.

Cardwelli—Evergreen shrub 8 to 10 inches, bright purple flowers, blooms over a long period each year. 35c each, 3 for 95c.

Menziesii—Evergreen creeper, small leaves, blue or purple flowers on 4-inch stems. 25c each, 3 for 65c.

Rupicola—The most beautiful of all, evergreen shrub, compact growth, greyish foliage and bright reddish pink flowers. One of the best alpine shrubs for dry rocky places. 35c each, 3 for 95c.

PHLOX

Here in the Northwest are to be found Native Phlox that have an important place in the choicer alpine and rock plants. We are listing a few of the choicer ones out of this large list of Native Phlox.

Adsurgens—Evergreen trailer, dense mats of bright green foliage. The large flowers of salmon-pink varying to white are clustered on stems 3 to 6 inches high. Full sun but must have plenty of root moisture and gritty drainage. 35c each, 3 for 95c.

Caespitosa—A very rare species, compact with pale lavender or white flowers, requires a very stony soil for perfect drainage, full sun. 50c each, 3 for \$1.25.

Diffusa—For neatness in growth and best in flower, this Phlox outranks them all. The flowers are pink, lavender or white. Treat as *P. caespitosa*. 50c each, 3 for \$1.25.

Divaricata—Blue Phlox. Lavender blue flowers on 12-inch stems. 25c each, 3 for 65c.

SILENE

Acaulis—Solid mats of bright moss-like foliage, covered with almost stemless pink flowers. June to August. Does best in a gritty, well-drained soil in light shade. 25c each, 3 for 65c.

Hookeri—A wonderful native, of prostrate habit. The foliage is a soft grey and large deeply fringed flowers of pink. Light sandy soil and full sun, no water during the summer months. 25c each, 3 for 65c.

Ingrami—The flowers are of a deeper pink than *S. hookeri*, which it resembles, and are more erect and more floriferous. 35c each, 3 for 95c.

SYNTHYRIS

These little "Alpine Violets" are found growing in the dense shade of the woods, and delight in a leaf-mold or peaty soil, with plenty of moisture during the growing season. They bloom very early in the spring. 25c each, 3 for 65c.

Rotundifolia—Large rounded leaves, spikes of lavender or pale blue flowers.

Stellata—Reniform leaves and 6-inch spikes of deep blue flowers; the most robust of all.

Sweetseri—Dark blue or violet form of *S. rotundifolia*.

VIOLA

There are very few other plants that have as long a blooming period as the Viola, which is an added need to the garden. The majority require a sunny position, in a sandy, well drained soil with leaf-mold or peat. 25c each, 3 for 65c.

Adunca—Native evergreen with small heart-shaped foliage and dark blue flowers on 4-inch stems. Blooms in the spring and again in August.

Beckwithi—The two upper petals of the flower are purple and the others are pale violet.

Cuneata—Wedge-shaped leaves and pretty flowers of purple and white.

Halli—The best of our deciduous natives. The upper petals are rich purple, the others cream yellow. Does best if given shade during summer months.

Sylvestris rosea—Fine rosy-pink flowers, rather dwarf. Requires water during summer. Sun or light shade.

Trinervata—Deciduous native with finely cut foliage. Upper petals are dark blue and the others pale blue to white with yellow base.

Chrysantha—Flowers of rich yellow within, maroon on back. A deciduous variety with finely cut foliage. Very choice and rare.

Nuttallae var. pramorsa—Large woolly leaf, 4 to 6 inches, evergreen, free flowering, yellow. Blooms May and June.

NATIVE FERNS

ADIANTUM PEDATUM (Hardy Maidenhair)

The hardy American Maidenhair is the most attractive of our Ferns. The stems are black with delicate green fronds. Its natural haunts are in rich soil of slight hollows in moist hilly woods, therefore we can, with little trouble, naturalize their wants. Clumps set out must be given deep peaty soil and the protection of ample shade; then the beauty of the plant will grow as if it were in its dim wild home. 50c each, 6 for \$2.50.

ASPLENIUM TRICHOMANES (Dwarf or Maidenhair Spleenwort)

Tucked away in clinks of shaded rocks, will be found this daintiest of all Ferns. The fronds densely clustered, 6 inches long and about 1 inch wide, are arranged in spreading rosettes, facing the source of light, making a beautiful color contrast by its dark green pinnae and shining purplish-brown stalks. Wants peaty soil. 25c each, 6 for \$1.25.

ASPIDIUM ACROSTICHOIDES (Wood Fern)

An evergreen species. The fronds are a glossy rich green. Very good for colonizing in cool shady places. Deep soil well watered. 18 inch. 35c each, 6 for \$1.95.

CHEILANTHES GRACILLIMA

A dwarf, compact rock Fern, with ciliate fronds of an exquisite delicacy. About 4 inches. This species prefers northern or eastern exposure. 35c each, 6 for \$1.95.

DRYOPTERIS MARGINALES

The fronds are almost leathery in texture, having a blue green color. 18 to 21 inches. It loves loose rocks, part shade. 35c each, 6 for \$1.95.

POLYSTICHUM ANDERSONI

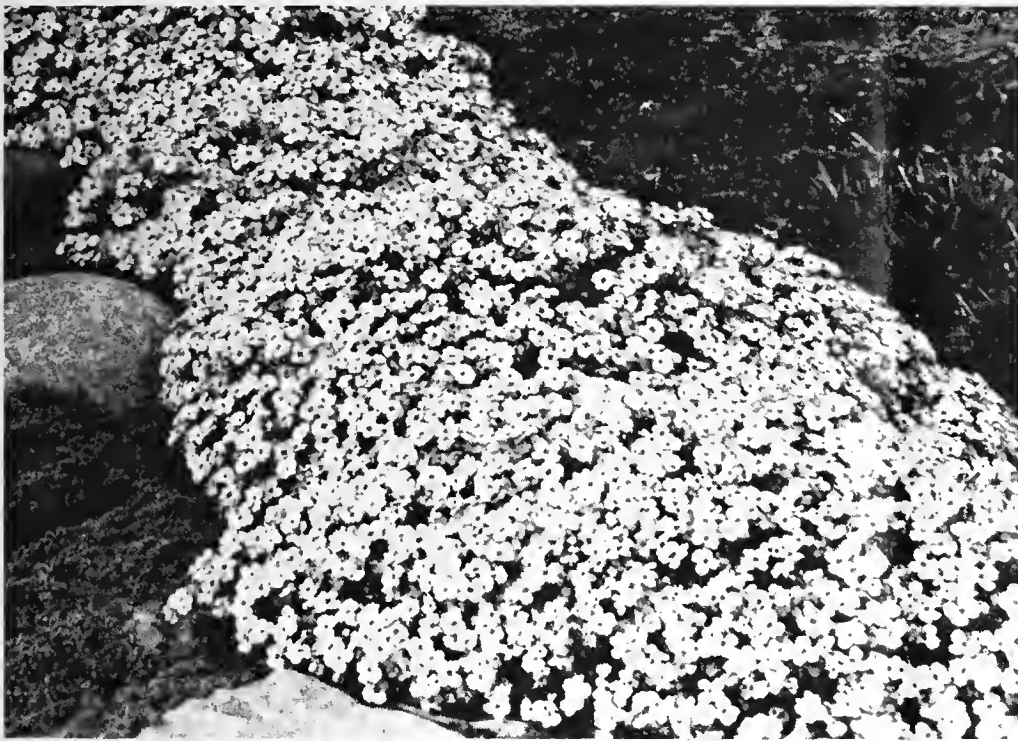

This Fern is rather tall for use in the rockery, but is suitable for shady places or corners. Wants light shade. A very rare species. 75c each, 6 for \$4.00.

POLYSTICHUM LONCHITIS (Mountain Holly Fern)

Rare species. Fronds are dark green, 12 to 15 inch. Wants shade. 50c each, 6 for \$2.50.

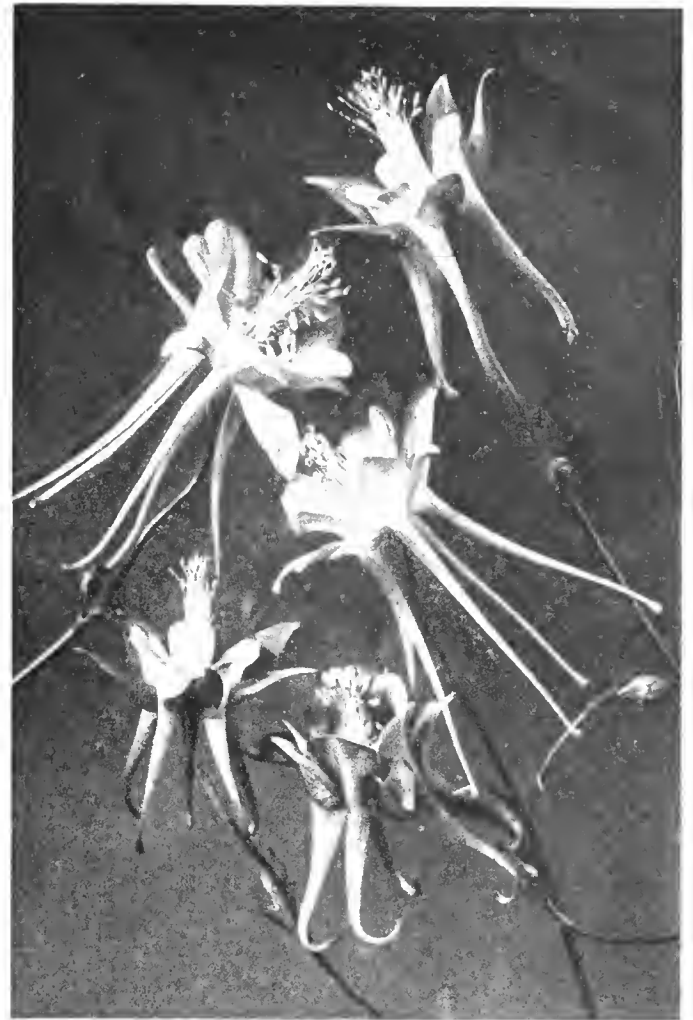

WOODSIA SCOPULINUM

The Woodsia Ferns are rare little rock loving plants. The fronds growing in rosettes or tufts, very dwarf. Wants peaty well drained soil, half shade. 50c each, 6 for \$2.50.

AUBRETIA

PERENNIALS and ROCK PLANTS

COLUMBINE, AQUILEGIA

A few timely suggestions for fall planting.

If your garden is to be at its best for next spring, preparation of the soil and most of the planting should be done in the fall.

Plants will be shipped either by mail or express or in case of large quantities by freight. Please add transportation costs to your remittance, otherwise plants will be shipped transportation charges collect.

ACHILLEA

Ptarmica (The Pearl)—Pure white double flowers, all summer long. Very showy and prized as a cut flower. Succeeds well in any ordinary soil and in sunny border. A too rich soil should be avoided. 15 to 18 inches in height. 25c, 3 for 65c.

ALYSSUM (Basket of Gold)

Saxatile Compacta—Masses of bright yellow flowers in the spring. Fine for rockery and is frequently used for carpeting beds planted with spring bulbs. Does well in rock walls. Ordinary soil suits their needs. 25c, 3 for 65c.

ANDROSACE (Rock Jasmine)

Sempervivoides—Neat rosettes of leaves on 6-inch stems with heads of deep pink. June and July. Requires a well drained gritty soil. Protect from heavy rains and excessive moisture. 35c, 3 for 95c.

AQUILEGIA (Columbine)

Crimson Star—The new bright crimson, long spurred variety. The long spurs are a rich crimson, the center is white, tinged carmine, the flowers measure 3 inches in diameter. Few hardy plants excel them for beauty; ideal for shady borders. Columbines succeed in ordinary soil with plenty of humus, provided by dressing of peat and well decayed manure. Best grouped in three or more. 35c, 3 for 95c.

ARMERIA (Thrift or Sea Pink)

Dwarf growing perennials, grassy leaves, a tufted habit of growth. The flowers are borne in globular heads from May until end of July. These plants are suitable for edging of borders, beds and form lovely clumps in the rockery. Do best in dry sandy soil and sun.

Maritima—Flowers are pale pink on stems 3 to 6 inches. Foliage is grass-like and evergreen. 25c, 3 for 65c.

AUBRIETIA (Purple Rock Cress)

Although strictly a rock plant, yet they can be used with pleasing effect for growing in masses in edging of borders, or carpeting the surface of beds planted with spring bulbs. They are of trailing or tufted habit and evergreen foliage, blooming freely from April to July. Any good well drained soil. All are about 3 inches high. 25c each, 3 for 65c.

Eryii—Best rosy lilac.

Hendersonii—Rich lavender.

Moerheimi—New lilac pink.

CAMPANULA (Bellflower)

One of the most popular and showy hardy perennials for the border or rock garden. The dwarf types are used for edging or growing in groups, in borders or rockeries. Practically all enjoy a little shade. The soil should be rather gritty and well drained. Blooms from May to October.

Carpatia—Species growing in compact tufts about 8 inches high, the flowers are clear blue on wiry stems. Begins blooming in June.

Glomerata—It has large close heads of deep blue flowers which are very effective, 12 inches high. 25c, 3 for 65c.

DELPHINIUM

Few plants lend a greater attraction to the border in early summer than a bold mass planting of these plants, with their many colors. They require a rich soil, well drained. Remove faded flowers and on no account allow seeds to develop.

Belladonna (Cliveden Beauty)—They do not grow quite as tall as the hybrids but they produce more spikes and are very graceful. The light blue spikes are 3 to 4 feet high. 3 year old plants.

English Hybrids—Mixed colors strongly marked. Large spikes 4 to 5 feet. 3 year old plants. 25c each, 3 for 65c.

DIANTHUS (Species)

No rockery is complete without a liberal planting of various Dianthus. They are all very hardy and want sunny, dry places in the garden or wall.

Arenarius—Fine in a sandy soil and sun, the bloom is white with carmine ring, on 5-inch stems.

Deltoides, "Major Sterns"—Dwarf mass clumps, with brilliant crimson flowers, bronze foliage, 3-inch stems. 25c, 3 for 65c.

GAILLARDIA (Blanket Flowers)

For color and beauty, as well as its general use, this perennial is the most desirable of all. They will thrive through drouths, seem hardly to need water and yet hold their perpetual blooms from June to November. A rich but light soil is essential to grow them successfully and require a sunny place. 18 to 24 inches.

"The Dazzler"—Flowers of crimson and gold in a perfect blend. Extra large flowers. 25c, 3 for 65c.

DELPHINIUM

nate. Succeeds in good, ordinary soil in sunny borders, requiring plenty of moisture in summer.

Mrs. Bradshaw—Large double flowers of fiery or orange red, blooming most of the summer. 12 to 18-inch stems.

Lady Stratheden—Golden yellow bloom, counterpart of Mrs. Bradshaw. 25c, 3 for 65c.

GYPSOPHILA (Baby's Breath)

Their numerous feathery panicles of starry white flowers borne on thread-like stalks in early summer. Highly prized for cutting. Likes a well drained and not too heavy soil, and partial to lime, mixed in with the soil at time of planting. Sunny position is essential.

Bristol Fairy—A wonderful new variety. Produces large panicles of double white flowers. Grafted plants. 50c and 75c each.

Repens—A beautiful trailing plant for rockery. Clouds of small white and pink blooms July and August. 35c, 3 for 95c.

HEUCHERA (Coralbell)

Graceful flowering plants with abundance of flowers, suitable for cutting. Fine for edging walks, borders and rock gardens. The leaves are heart shaped. They require a well drained, fairly rich soil and sunny position.

Convallaria Carneae—New creamy white that looks like Lily-of-the-Valley. 12 to 15 inches.

Sanguinea—Flowers are bright crimson from June to September on 12 to 15-inch stems. Very free flowering. 25c each, 3 for 65c.

HIBISCUS (Mallow)

The Giant Mallow is a tall plant 3 to 4 feet tall with very large hollyhock-like bloom of pink or white, 4 to 5 inches in diameter. Full sun and a rich well drained soil suits best. Strong 3 year old plant, 35c, 3 for 95c.

GEUM

GEUM SIBERICA —

Here is a new beauty for the rockery or border. Flowers of rich orange scarlet, short dense foliage of almost black green. Flowers intermittently throughout the summer. Be sure to add a group of these to your order. 35c each, 6 for \$2.00.

GEUM (Avens)

A useful perennial producing a wealth of attractive bloom. Useful for cutting. They are tufted in habit and leaves pin-

Calycinum—This is really a ground cover and the hardiest of all. It makes underground runners, which, when they come up, produce a carpet of green, covered with large yellow bloom. Suitable for covering banks. 25c, 3 for 65c.

LUPINUS (Lupine)

Their elegant leaves and massive tall spikes of pea-shaped flowers form a stately group when grown in colonies. They require a warm sheltered position, well drained medium soil, slightly acid (never give lime), plenty of water in dry weather.

Polyphyllus Hybrids—Hardy lupines; many colors. Mixed only. 35c, 3 for 95c.

PRIMULA (Primrose)

This genus contains many species of hardy plants suitable for the rockery, waterside and borders. Some require a special soil treatment. For the following varieties, a good loamy soil freely mixed with peat or leaf mold and a moist partly shaded location will suit very well.

Auricula Gigantea—The growth is very attractive, forming rosettes of thick leaves. Heads of bloom in various colors on 4 to 6-inch stems, very fragrant. 25c, 3 for 65c.

Cashmeriana—Large round heads of purplish blue shade, prefers moist shaded places, stems 10 to 12 inches. 35c, 3 for 95c.

Vulgaris—True English Primrose, with pale yellow flowers. 25c.

Veris Hybrids—Fine for border or mass planting, various colors in buff, orange, and red. 25c, 3 for 65c.

PYRETHRUM (Painted Daisy)

Showy flowers of all shades except blue and yellow. They bloom freely from June to Sept. Finely cut foliage, grown in neat compact tufts. The soil should be rich, of medium texture, plenty of well rotted manure. A sunny position is required. In dry season give plenty of water. Cut back as soon as flowers fade so as to have a continuance of bloom. Finest mixture, 25c, 3 for 65c.

SAPONIARA (Soapwort)

Suitable for sunny borders or rock gardens and walls, the plant is more or less tufted and compact in growth, a profusion of bloom throughout the spring.

Ocymoides Splendens—Flowers of rosy-pink in May and early June.

Ocymoides Splendens Alba—Pure white form of the above. 25c each, 3 for 65c.

SCABIOSA (Pincushion Flower)

Fine perennials for the border culture. The Caucasica are valuable for cut flowers because of its showy, blue or lavender blue shades borne on long stems, 15 to 18 inches.

Caucasica—Their lovely flowers are a soft shade of lavender. June to Sept. 25c, 3 for 65c.

TROLLIUS (Globe Flower)

Hardy perennials belonging to the buttercup order. A fine early summer flowering plant for moist, partially shady border or waterside. The flowers are globe shaped. They require a deep rich soil, plenty of moisture.

Ledebouri—Vivid orange with many rays showing from the globe-shaped flower. Blooms in May on 18-inch stems. 35c each, 3 for 95c.

BLEEDING HEART

DICENTRA SPECTABILIS—The old-fashioned bleeding heart. Oregon climate is particularly favorable for the production of this old favorite. Plan a group of them and know some real bleeding heart success. Each 50c, 3 for \$1.35.

HYPERICUM (St. John's Wort)

The flowers are yellow and noteworthy for the prominent group of stamens in the center. Ordinary soil and full sun.

VIOLAS

One of the best plants for edging for border or garden. Good soil is the main point in growing good violas. Well drained soil, properly cared for, these plants remain in full bloom all summer. The secret of continuous bloom is the fact that they must be sheared several times during the summer.

Admiration—Violet flowers.

Apricot Gem—Bright cream-orange, outer petals surround a rich apricot center.

Arkwright Ruby—Solid ruby red marked with maroon.

Jersey Gem—One of the most popular. Compact tufts of dark green foliage covered with bright purple blue flowers all through the summer. 25c each, 3 for 65c.

PEONIES

Strong 3 to 5-Eye Clumps

Is there any flower more loved or more admired than the Peony? Recent years have brought great improvement over the older varieties and their popularity has increased accordingly. Every home should plan for at least one group of three to five of these gorgeous flowers. The following list contains some of the finest varieties known.

Plant them in the fall from Sept. 1st until the ground freezes. Select a place not close to trees or buildings, spade the ground deep and thoroughly, add well rotted manure or bone meal. About one pound of bone meal to the square foot is about right. Space plants about 3 to 4 feet apart. Set them upright and cover over so that the eyes will be about 2½ inches below the surface. Mulch with straw or litter if in a cold climate. Cultivate frequently in spring and add another good handful of bone meal to each plant.

Adolphe Rosseau—Double deep brilliant garnet, tall strong grower. Each \$1.00.

Albiflora—Early single, very large paper white petals encircling a mass of yellow stamens. Fragrant. Each \$1.00.

Avalanche—Large double, ivory white. Midseason. Each 75c.

Baroness Schroeder—Double flesh white. One of the best. 75c.

Claire Duboise—Large satiny pink. Double. 75c.

Couronne d'Or—Pure white with a ring of yellow stamens around a tuft of center petals, tipped carmine. Each 50c.

Constance—Japanese type, salmon pink with yellow center. \$1.

Delache—Large rose type. Violet crimson tipped silver. 75c.

Felix Crousse—Double deep ruby red, very large. 75c.

Festiva Maxima—Large double, ivory white flecked crimson. 75c.

Grandiflora Nivea Plena—Double cream white with tints of salmon and sulphur in center. 75c.

Karl Rosenfeld—Very fine double dark crimson. \$1.00.

Isani Gidui—Japanese. Large single pure white with silky broad petals encircling a tuft of golden stamens. Considered by many as the best of all. Each \$5.00.

Mikado—Large cup-shaped Japanese red peony. Single row of dark crimson petals encircling a cushion of golden petaloids. Like a giant red poppy but much more durable. \$1.50.

Mme. de Verneville—Double pure white flecked carmine. 50c.

Mons. Jules Elie—Immense double, light rose pink with silvery sheen. 75c.

Mons. Martin Cahuzac—Double dark purple with black reflex. Each \$1.50.

Officinallis Rubra—A fine old double red. 75c.

Philomelle—Anemone type. Bright violet rose with center of deep golden yellow. Fragrant. 50c.

Some Ganoko—Japanese. Very dark red with satiny reflex petals and yellow center. \$2.00.

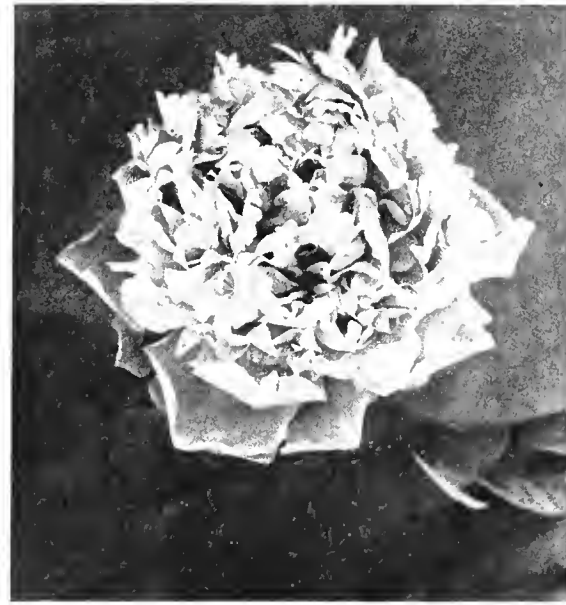

Sarah Bernhardt—Large delicate shell pink. A very beautiful variety. \$1.50.

Walter Faxon—Medium sized blooms of bright rose pink with salmon shades. Late. \$2.00.

EVERGREEN TREES

We grow a most complete stock of ornamental shrubs, shade trees, fruits, nuts, berries, roses, perennial and rock garden plants. We supply the best in fertilizers, peat and grass seeds. We are experts in all types of landscape work, backed by many years of practical experience. Write or call for prices on any stock not found listed.

SHIPPED DIRECT FROM OUR OWN FIELDS, by Freight or Express, Not Prepaid

ARBORVITAE—Thuya

Occidentalis Hoveya—Round headed globe shaped form. A bright green during summer changing to a darker shade in winter. A very splendid tree. 2 ft. balled specimens, \$1.75 ea. Shipping wt. 40-45 lbs.

Occ. Hills Pyramidal—Narrow pyramidal form. Rich deep green in color, the foliage forming in dense whorls. Very hardy and long lived. We highly recommend this tree even for the colder sections. 2-3 ft. \$1.25.

Pyramidalis—Perhaps the best known pyramidal tree and always a great favorite. Narrow and compact, reaching a maximum height of 12-15 ft. and seldom more than 2 ft. through. Very little pruning is ever required to keep them in perfect shape. 2-3 ft. \$1.25; 3-4 ft. \$1.75.

Tricolor (Thuya Lobbi)—Erect pyramidal form. The foliage is brightly variegated gold, yellow and green during the spring and summer months changing to a full rich green in fall and winter months. A very beautiful and graceful type. 2-3 ft. \$1.50; 3-4 ft. \$2.25.

SPECIAL MAIL ORDER GROUP OF EVERGREEN TREES

Hardy nursery grown plants that may be shipped economically by express or mail. You will enjoy planting and growing these in your own yard. Order now and get them established during the fall months.

40c each, 6 for \$2.00

Alike or assorted varieties.

Healthy 2 year field grown.

Irish Juniper—Silvery gray foliage.

Pyramidal Arborvitae—Hardy, upright, compact.

Blue Cypress—Foliage a rich blue.

Plume Cypress—Soft, feathery foliage.

Berkmans Golden Arborvitae—Dwarf, golden, globe-shaped.

Juniper Virginiana—Dense foliage with a reddish hue.

Plants will be packed in damp moss to insure arrival in good condition. Plant as soon as received without exposing roots to wind or sun more than necessary.

Orientalis Aurea (Berkman's Golden Arborvitae)—Low compact form with intensely golden foliage. Very hardy and perhaps the best of all dwarf trees. Growth is very slow, but will finally attain a height of 4-5 ft. 8-10 inches. 50c; 12-15 in. specimens, \$1.25.

Beverleyensis—Erect columnar type with real golden foliage. A close relative and very similar foliage to the two preceding varieties. It is the best of the golden pyramid forms of the Arborvitae. 2-3 ft. \$1.25.

CHAMAECYPARIS

Alumi (Blue Cypress)—Upright, symmetrical, compact growth. The foliage is a rich blue. It is deservedly the most popular tree planted along the coast region. It will thrive in any good drained garden loam, preferring a sunny location. Our enormous stock of these enables us to offer exceptionally low prices in top grade material. 2-3 ft. 75c; 3-4 ft. \$1.25.

Erecta Viridis—Similar to the above except that it is light green in color. Somewhat more difficult to transplant. 2-3 ft., \$1.50.

Filifera (Thread Cypress)—Dwarf tree with drooping thread-like branches. A very desirable form most effectively used in the foreground of porch entrances or in connection with rockery plantings. Truly belonging to the aristocrat class. 18-24 inches, \$2.00.

Lawsoniana (Lawson Cypress)—A graceful tree with drooping branches. The color is variable, ranging from blue to green. A thoroughly hardy type and desirable where a tree of 20 to 25 feet is desired. 2-3 ft. trees, \$1.25.

Lawson's Stewartii Aurea—Truly a beautiful tree. Similar to the Alumi Cypress in habit of growth, the foliage is a most beautiful golden with the branches nearly flat along the trunk. Include at least one specimen of this tree in your planting. 15-18 inches, \$1.00; 2-3 ft., \$1.50.

Wissel—Another aristocrat. Rich steel blue foliage forming in whorls along the branches. The tree is narrow and of low pyramidal growth. An outstanding species. 3-4 ft. \$3.00.

Obtusa Aurea (Hinoki Cypress)—The true Japanese cypress. Of spreading habit, fan-shaped graceful branches with golden green foliage. An exceedingly handsome tree. 18 to 24 inches, \$1.50.

Obtusa Crypsie—Quite similar to the above. The foliage is more open and drooping, attaining greater breadth and less height. 18-24 inches, \$1.50.

JUNIPER

Excelsa Stricta (Spiny Greek)—Dense conical head and beautiful blue green foliage. Rather slow growth but will attain a height of 7 or 8 feet. Trims nicely and may be used as a low specimen. 12-15 in. 75c; 2-3 ft. \$2.00.

Hibernica (Irish Juniper)—Slender, compact, columnar. Sharp silver grey needles. An old favorite in the column types. Very hardy. 2-3 ft. 75c; 3-4 ft. \$1.50.

Virginiana (Red Cedar)—Compact pyramidal growing tree. the foliage is bright green during the summer, turning to a reddish hue during the winter months. A very hardy type that stands well on poor or gravelly soil. 3-1 ft. \$1.50; 4-5 ft. \$2.50.

Pfitzeriana (Pfitzer's Juniper) — A fine spreading or prostrate form. Fine for banks or slopes or in rockeries. Will stand very dry or exposed places. 2-3 ft. \$1.50.

Sabina (Sabin's Juniper)—Similar to Pfitzer, the foliage being more open and not as rugged in character. 2-3 ft. \$1.50.

Sabina Variegated—A variegated form of the above. A very attractive plant and showy in a planting. 18-24 in. \$1.50.

Kosteriana (Koster's Juniper)—A semi-prostrate form with dense short needled foliage. One of the best for use in group facings. 2-3 ft. \$1.50; heavy specimens, \$2.50.

SPRUCE (Picea)

Pungens Glauca (Colorado Blue Spruce)—The most popular of all specimen trees. Always hardy and of slow uniform growth. 24-30 in. \$2.50

Koster's Blue Spruce—A very blue form of the above. This type is grafted from exceptionally blue trees and the finest to be had. You can be assured of planting something really excellent in buying these. Well shaped. 12-15 in. \$1.75.

PINE (Pinus)

Mugho—A slow growing tree with many dense branches arising from the base and forming a round headed bush. It is strictly dwarf and one of the finest trees for use in the foreground of an evergreen planting or borders or hedges. 18-24 in. \$1.50.

TAXUS (Yew)

Baccata (English Yew)—Erect pyramidal in form, rich dark green foliage that is very attractive, and bright red berries in the fall. One of our finest forms. It is long lived and very easy to keep in fine trim the year round. 2-3 ft. \$2.00; 3-4 ft. \$2.50.

Baccata Fastigiata (Irish Yew)—Very dense columnar type. The branches all growing up straight parallel with the trunk. Of easy culture but very slow growth. Another of the real aristocrats. 18-24 in. \$1.50.

COLORADO BLUE SPRUCE

Flowering and Deciduous Shrubs

Suggestions for Fall Planting

Broad-Leaved Evergreens

Shipped Freight or Express Transportation
Charges Collect

ABELIA GRANDIFLORA

Shiny leaves and masses of pink flowers throughout the fall months. Each 50c.

AUCUBA

Gold dust shrubs. Large glossy laurel-like leaves. Green or variegated varieties. Each 60c, 3 for \$1.50.

BARBERRY BUXIFOLIO

Dwarf compact shrubs with foliage resembling boxwood and covered with bright yellow flowers in spring. Each 35c, 3 for \$1.00.

BOXWOOD (Dwarf)

Beautiful for edging along walks and drives. Plant 8-12 inches apart. 4-6 inch plants. Each 15c, 25 for \$3.00.

BROOM

Scoparius Andreans—Pea-shaped yellow flowers with fall petal of deep red. Each 50c.

Pracox—Cream colored flowers in early spring. Each 75c.

COTONEASTER

Franchetti—Arching branches, orange berries. Flocosa—Dwarf, slender arching branches, red berries.

Harroviana—Compact, semi-upright, red berries. Each 60c, 3 for \$1.50.

DAPHNE

Odorata—Sweet scented, spring flowering. 6-8 inch plants. Each 50c.

Cneorim—Rock Daphne, pink spring and summer blooming. 2 yr. plants. Each 50c.

FIRETHORNE

Lalandi—Upright growth, orange berries. 60c. Yunnanensis—Branching, red berries. Ea. 60c.

GOLDEN PRIVET

Bright variegated foliage. Each 50c.

HEATHER

Carnea—Low growing, winter flowering, 2 yr. plants. 35c, 3 for \$1.00.

Bell—Spikes of purple throughout the summer. Each 50c.

LAUREL

English—Plant your hedge this fall. 10-15 inch, 25c each, 12 for \$2.50; 15-18 inch, 35c each, 12 for \$4.00.

LAURISTINUS

Beautiful heads of pink buds all winter. 10-12 inch plants. Each 50c.

SKIMMIA JAPONICA

Shade plant. Heavy glossy leaves. 9-12 inch plants. Each \$1.00.

Azaleas, Evergreen

Amoena—Wine-red flowers completely cover the plant in the spring.

Hinodegiro—The popular crimson, spring blooming variety.

Macrantha—Soft shell-pink, very beautiful. 4-6 inch plants, 35c each, 3 for \$1.00.

DECIDUOUS FORMS

Alta Clarence—Brilliant orange flowers.

Mollis—Salmon pink.

Calendulacea—Pale yellow to orange-red. 12-15 inch, \$1.00 each, 3 for \$2.75.

Entire Group—6 varieties listed above, \$3.50.

Deciduous Shrubs

Plan for these old-fashioned favorites.

Each 50c, 6 for \$2.50

Strong, 2 yr. shrubs. Alike or assorted.

BARBERRY

Japanese—Dwarf, red berries in fall.

Red Japanese—Red foliage all summer.

BUTTERFLY BUSH (Buddleia)

Long spikes of lilac-like flowers from June to November.

COTONEASTER

Applanata—Upright, crimson berries in fall. Simmonsi—Similar to above, red berries.

HONEYSUCKLE

Morrowi—Pure white flowers in great profusion.

Pink Tartarian—Similar to above with pink flowers.

HYDRANGEA

Hortense—Double blue, large leaved.

Otaksa—Smaller but more numerous flowered than Hortense.

Paniculata Grandiflora—Large cone-shaped flowers.

KERRIA

Double orange flowers on slender arching branches.

LILACS

Common—Old-fashioned forms of lavender and white.

Grafted—Doubles and singles in red, purple and white.

PHILADELPHUS (Mock Orange)

Lemoine—Single white flowered.

Verginale—Double white flowered.

QUINCE

Japanica—Bright scarlet to softer shades of pink.

SNOWBALL

Opulus Sterile—The old-fashioned favorite.

Lantana—Heavy dark green leaves. A handsome shrub.

SPIREA

Anthony Waterer—Dwarf, crimson flowered. Prunifolia—Bridal-wreath. White sprays in early spring.

Thunbergi—White flowers in early spring ahead of the leaves.

Van Houte—Upright, flowers in great clusters.

TAMARIX

Fine feathery foliage, covered with tiny pink flowers.

WEIGELIA

Rosea—Pink bell-shaped flowers.

Eva Rathke—Dwarf, red flowered.

Candeda—White flowered.

Vines and Creeping Plants

CLEMATIS

Large flowered, 2 yr. plants, \$1.00 each.

Jackmani—Large purple.

Mad. Ed. Andre—Large red.

Henryi—Large white.

Ramona—Large blue.

Mme. Baron Veillard—Lilac-rose, late flowering.

BOSTON IVY—2 yr. plants, 50c each.

VIRGINIA CREEPER—2 yr. plants, 50c each.

HONEYSUCKLE

Hall's Japan—Semi-evergreen. 2 yr., 50c ea.

Belgian—Old-fashioned variety. 2 yr., 50c ea.

ENGLISH IVY

1 yr. potted plants, 25c each, \$15.00 per 100.

JASMINE

White, yellow or pink. 2 yr. plants, 50c each.

SILVER LACE VINE—2 yr. plants, 75c each.

CLIMBING HYDRANGEA

A beautiful new climber with large white flowers. 50c each.

Shade and Flowering Trees

SHADE TREES

2 yr. 4-6 ft. high, each \$1.25, 6 for \$7.00

BIRCH, Cut-leaf Weeping

European—Large leaved.

DOGWOOD

Nuttall—Large white flowered.

ELM

American—The large stately type.

Chinese—Very hardy, much branched.

GOLDEN CHAIN

Long chains of golden flowers.

HAWTHORNE

Double red, double pink or double white.

MAPLE

Norway—Large leaves, dense heads.

Silver—Silvery bark, fall leaves red and gold.

Sugar—Crimson foliage in fall.

MOUNTAIN ASH

Clusters of red berries during Aug. and Sept.

WILLOW—Golden weeping.

FLOWERING TREES

CHERRY

Kwanzan—Double pink.

Mt. Fuji—Double white.

Kofugen—Double dark pink.

Naden—Double light pink. 4-5 ft., \$1.25 each.

Japanese Weeping—Single or double flowered. 5-6 ft. standards, \$2.00 each.

CRAB

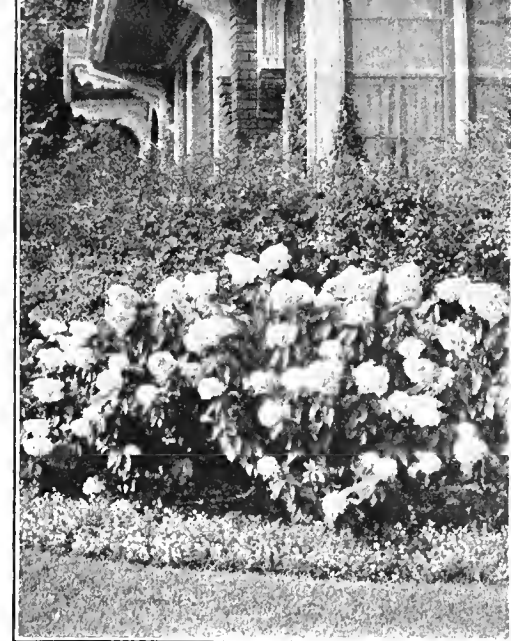

Bechtel—Double flowering pink.

Needzswetskyana—Red veined, red flowering.

Parkmani—Double rose red.

Scheideckeri—Double pink.

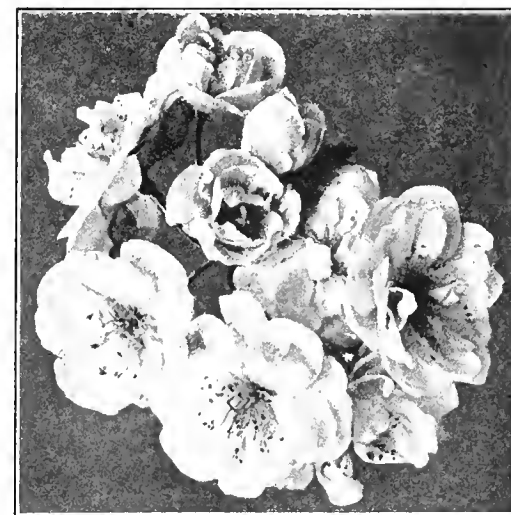

2 yr. 4-5 ft. trees, \$1.00 each.

HYDRANGIA

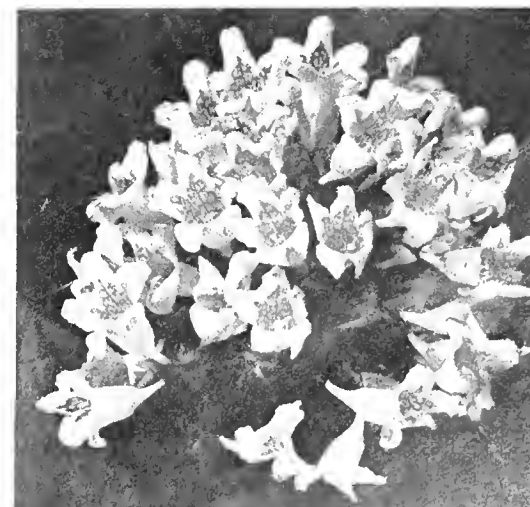

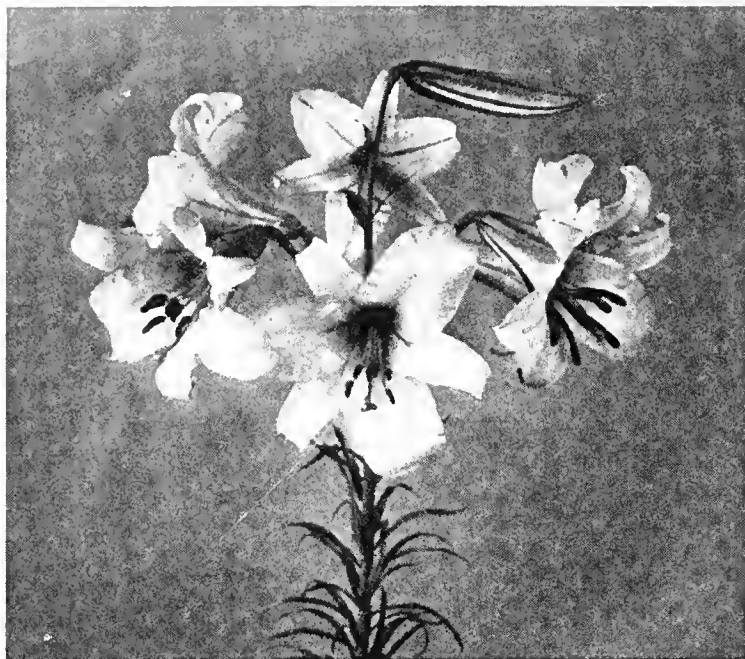

SNOWBALL

PHILADELPHUS

WEIGELIA

L. REGALE

L. HENRYII

HARDY OREGON LILIES

Lilies are best grown in partial shade, among trees or shrubs and in a well drained location. Plant at the prescribed depth and use peat to lighten the soil. Fertilize with bone meal, using sand immediately around the bulb. Mulch with a good application of peat moss or leaf mold to insure even moisture during the growing season.

Lily bulbs will be ready for delivery through November and December. Please place your order as early as possible, while stocks are complete.

L. AURATUM VAR. PLATYPHYLLUM — The golden rayed mountain lily of Japan. The finest of late flowering bulbs. Very large, broad white petaled flowers, banded with yellow and richly spotted with crimson to deep yellow. Fragrant. Plant 8-12 inches deep in partial shade with good drainage. Height 5-7 feet. Blooming period August to September. Large bulbs \$1.00 each; medium bulbs 60c each.

L. BATEMANIAE—A fine rich apricot colored lily with upright unspotted flowers. Plant in semi-shade and a rich light soil. Height 3-4 ft. Late July to August. Select bulbs 35c each; \$3.50 per dozen.

L. BOLANDERI—A very rare native species. Small, bell-shaped flowers of deep crimson-red, purple spotted. Stems 2-3 ft. high. Blooms July and August. 50c each for strong bulbs.

L. CONCOLOR—An excellent rock garden lily with one to six dainty erect star shaped flowers. The color varies from scarlet orange to red orange with mahogany spots. Height 18-24 inches. Plant 3-4 inches deep in light well drained soil. Blooming period, June to July. Makes a small bulb. Choice bulbs 30c each; \$3.00 per dozen.

L. COLUMBIANUM—Native of Oregon. Loves a woodland setting or a nook in the wild garden. Use plenty of sand and humus in the soil. Plant 8 inches deep. Golden yellow turks caps that open in July. 30c each, 3 for 80c, 12 for \$3.00.

L. ELEGANS (Thunbergianum)—Dwarf early flowering lily of Japanese origin, having upright cup shaped flowers, borne two to four on a stem. Adapted to rockery or border use or may be used for bedding out. Excellent for cutting. Plant 5-6 inches deep in sun or partial shade and a well drained location. Variety Alice Wilson, a light apricot on 12 to 15 inch stems. Blooming period June to July. 40c each, \$4.00 per dozen.

L. LILLIUM ELEGANS AUREUM—A tall late flowering variety with deep apricot upright flowers, spotted mahogany. Lustrous dark green foliage. Excellent for cutting. Height 2-3 feet. Blooming late July. 35c each, \$3.50 per dozen.

L. ELEGANS ORANGE HITTELLUS IMPROVED—Pure orange with mahogany spots. Flowering in late May to early June. Each 35c, \$3.50 per dozen.

L. HANSONI—A handsome and dependable lily bearing from 6-12 nodding flowers of a rich orange cadmium color with mahogany spots. Does best in partial shade. Height 4-5 ft. Plant 8-10 inches deep in a well drained soil. Blooming period June to July. Extra select bulbs 75c each, \$7.50 per dozen.

L. HENRYI—Extremely hardy, vigorous and dependable Chinese variety. Bright golden yellow reflexed flowers with brown spots. Excellent for cutting. Height 5-8 ft. Plant 10-12 inches deep in partial shade with good drainage, and give plenty of water during the growing season. Blooming period, August to September. Large bulbs 40c each, \$4.00 per dozen.

L. MAXIMOWICZI—An absolutely hardy, late blooming lily somewhat resembling Tigrinum but of rather more slender growth. Well grown plants carry ten or more orange red reflexing flowers with dark mahogany spots. At its best in a partly shaded spot and a soil abundant in peat. Plant 6-8 inches deep. Height 4-6 ft. Blooming in August. Choice bulbs 35c each, \$3.50 per dozen.

L. OCCIDENTALE—The most local of Oregon species. Found only in a few spots in southern Oregon and northern California. Grows from 4 to 6 ft. high. Has as many as 15 flowers of glowing crimson with maroon spots in the throat. Buds are blood-red before opening. June and July. Strong bulbs 50c each.

L. PARDALINUM GIGANTEUM (Sunset Lily)—A rare and superior form of the Pardalinum. Inner half of petal is a bright orange maroon spotted, the outer half a rich orange scarlet. Blooming time June to July. Height 4 to 6 ft. Each 60c, 6 for \$2.75.

L. PHILIPPINENSE FORMOSANUM IMPROVED WHITE (Late Type)—A superior form of the trumpet lily which is fast becoming one of our most popular species. Developed by Japanese hybridizers from their whitest flowering strains. The flowers are pure white with an emerald-green throat and are shaded externally with violet. Bears up to eight flowers on stems 4-6 feet tall. Fragrant. One of the latest to flower, blooming from September to October. Plant 5-6 inches deep in well drained lime free loam, rich in leaf mold. A warm sunny situation suits it best. Makes a small bulb for the size of the plant. Select bulbs, extra strong, 40c each, \$4.00 dozen.

L. REGALE—A magnificent lily and one of the most satisfactory ever introduced. Of easy culture doing the best in partial shade although good results may be had in the open. Plant 7-8 inches deep in well drained soil. The flowers are white suffused with pink and purple. Early July, height 4-7 feet. Strong bulbs, each 15c, 12 for \$1.50.

L. SPECIOSUM VAR. RUBRUM — Beautiful white flowers, flushed and spotted with deep rose. Bears up to twenty of these fragrant recurved flowers on stems 4-6 feet tall. Does best in partial shade planted 9 to 10 inches deep. Blooming August to September.

L. SULPHUREUM—Sulphur yellow growing to a height of 4 to 6 ft. One to several trumpet shaped flowers borne on tall wiry stems. A beautiful species from Burma. Blooming August to Sept. Each 50c, 3 for \$1.35.

L. TENUIFOLIUM—A charming little lily with slender stems, grassy leaves and flowers of a vivid scarlet. A splendid rock garden variety, height 12-18 inches, May and June. Plant 4-5 inches deep. Each 15c, 3 for 40c, 12 for \$1.50.

L. TIGRINUM SPLENDENS (Tiger Lily)—An excellent form of the Tiger Lily thriving in almost any soil and situation. Carries rich, dark salmon orange flowers, spotted with deep mahogany. This variety makes a strong growth and increases rapidly. Blooms in August. Plant 8 inches deep in well drained soil in sun or partial shade. Height 4-6 ft. Strong bulbs 25c each, \$2.50 dozen.

L. TIGRINUM FLORE PLENO (The Double Tiger Lily)—A showy and attractive garden plant blooming slightly later than the single form. The best of the double lilies. Height 3-5 ft. Culture same as for Splendens. Select strong bulbs 40c each, \$4.00 per dozen. Choice bulbs 30c each, \$3.00 per dozen.

L. UMBELLATUM GRANDIFLORUM—An extremely hardy form of easy culture. Huge heads of bright orange red flowers. Each 25c, \$2.50 per dozen.

L. WASHINGTONIANUM (Mt. Hood Lily)—Tall leafy stems bearing as many as 25 sweet scented flowers which open white and change to pink and wine color with age. Height 4-6 feet. Plant 10 inches deep in well drained soil. June flowering. Each 40c, 12 for \$4.00.

Above prices F. O. B. Portland.

BULBS FOR FALL PLANTING

Genuine Holland Tulip Bulbs

No. 1 Top Size. The Best Grade Grown.

Do not compare this stock with ordinary bulbs. There is a vast difference. Those who purchased our bulbs last fall will pleasantly remember the wonderful results. How evenly they came up. The rich healthy color to the foliage and then the bright glorious flowers opening. This was not accident but the result of planting only the very best bulb that had been properly grown the preceding season.

OUR LANDSCAPE DEPARTMENT will gladly help you plan your fall planting without charge, after which our expert planters may be arranged for, if desired, to execute the work at a nominal charge.

EARLY SPRING TULIPS

This class is the earliest to bloom. Not of great height but making a fine display when bedded.

Belle Alliance—Sweet scented scarlet.

Keizerkroon—Large red and yellow. A great favorite.

Prince of Austria—Deep orange red.

Yellow Prince—Deep canary yellow.

Prices—75c per dozen, \$5.50 per hundred.

DARWIN TULIPS

The most brilliant flowering of the tulip classes. Large cup shaped flowers, strong growing and long stems characterize this group.

Bartigon—A dazzling crimson scarlet, maroon shadings.

Clara Butt—Apple blossom pink.

Farcome Sanders—A rich scarlet with a white base.

Philippe de Commynes—A deep velvety black.

Pride of Haarlem—Carmine red, a very large flower.

Princess Elizabeth—Soft deep rose, slightly edged.

Rev. Ewbank—Vivid heliotrope lilac.

Sundew—Fringed petals of glowing crimson on tall stems.

Wm. Copeland—Lavender, very early flowering.

Extra select stock of above, 75c per dozen, \$5.50 per hundred.

MAY FLOWERING TULIPS

Inglecombe Yellow—Bright canary yellow.

Mrs. Moon—Reflexed petals of golden yellow.

Dido—Rose ground, heavily flushed amber with gold.

75c per dozen, \$5.50 per hundred.

SPECIAL VARIETIES

The following six are exceptionally fine. They are late introductions and rightfully belong in a class by themselves. You will want some in your garden this year.

City of Haarlem—Immense vermilion scarlet, edged white and blue black base. 90c per dozen, \$7.00 per hundred.

Louis XIV—Purple flushed golden bronze. Breeder. \$1.00 doz.

Zwanenburg—Pure white with black anthers. Darwin. \$1 doz.

Prince of Orange—Terra cotta, edged orange-yellow. Breeder 90c per doz.

Fantasy—A parrot tulip. Dark rose with green markings. A very beautiful flower with its fringed edges and fantastical shape. Each 15c, \$1.50 per doz.

Berlin—Sensational, new deep red, almost black, very large flowered. \$1.50 per doz.

HYACINTHS

Select named varieties. Extra large sizes.

Gertrude—A beautiful rosy pink.

La Victoire—Cherry red. Rather late.

Queen of the Pinks—Extra fine rich pink. Late.

L'Innocence—Pure white.

King of the Blues—A deep glossy blue.

Queen of the Blues—Clear light blue, very large.

City of Haarlem—A beautiful yellow. Each 20c, 6 for \$1.10

NARCISSUS OR DAFFODILS

Spring Glory—Large yellow trumpet with creamy white perianth. 85c per dozen.

King Alfred—Very large, solid golden yellow. 90c per dozen.

Poeticus (Pheasant's Eye)—A pure white with orange eup edged with red. 60c per dozen.

Von Sion—A golden yellow with double trumpet. 75c per dozen.

GRAPE HYACINTHS (Muscari)

Beautiful cluster of blue flowers in the early spring. For bordering or planting in groups between shrubs or the rockery.

Armeniacum—Brilliant blue.

Botryoides—Blue, bunch like.

6 for 25c, 40c per dozen.

SNOWDROPS (Galanthus)

Pretty small white flowers, blooming very early in the spring. Plant in borders or under trees where they may remain until becoming crowded. 50c per dozen, \$3.50 per hundred.

CROCUS

Mammoth yellow.

Mont Blanc—White.

Pallas—Purple, white striped.

Purpurea Grandiflora—Purple.

Extra large bulbs, 50c doz, \$3.50 per hundred.

Mixed crocus, 35c per doz., \$2.50 per hundred.

SCILLAS—BLUE BELLS

One of the first to bloom in the spring with dainty sprays of pretty blue flowers. Plant in groups in the border, between shrubs or in the rock garden. 50c per doz., \$3.50 per hundred.
